On July 17, 2013, City Council approved the concept for the Terwillegar Park Footbridge and West End Trails. These initiatives are part of the River Valley Access Project.

The initiatives are made possible by grants from the [River Valley Alliance](#), of which the City of Edmonton and the federal and provincial governments are partners. The Terwillegar Park Footbridge and West End Trails are another step towards improving citizens' access to and creating a continuous park system in Edmonton's river valley.
