

Holiday Wrap-up: Recycling, Garbage or Eco Station?

Edmonton's waste doubles during the holidays and as soon as festivities are finished, boxes, wrapping paper and packaging start arriving at the City of Edmonton's recycling facility.

Media are invited to a behind-the-scenes look at the Materials Recovery Facility during its busiest time of the year. A City spokesperson and a waste collector will be available to talk about the importance of recycling the right items and what items should go to an Eco Station.

Date: Friday, December 27, 2013

Time: 11 a.m.

Location: Materials Recovery Facility
Edmonton Waste Management Centre, Site 600, 13111 Meridian Street

Instructions to media: Please note that due to construction of Anthony Henday Drive there is a road detour north of the Yellowhead Trail. Follow road detour signs and allow for extra travel time.

Please drive to the scale house at the Edmonton Waste Management Centre. Scale operators will provide directions to the Materials Recovery Facility.

Personal protection equipment is required to enter the tip floor area. Equipment will be provided on site but please bring your own steel-toed boots.
