LRT on single track between Churchill and Central Stations

LRT will be operating on a single track between Churchill and Central Stations from the start of service on Saturday, February 15, 2014 until the end of service on Sunday, February 23, 2014.

On February 15, 16, 17, 22 and 23 all trains will run on their regular schedules. There may be slight changes to departure times.

On February 18, 19, 20 and 21 peak hour service will be reduced to every eight minutes from the current five minutes. Five car trains will be used to address capacity requirements. Edmonton Transit System (ETS) uniformed staff will be at Churchill and Central stations to assist customers during peak hours.

ETS is performing work on the rail between the stations. The northbound rail will be done first. It is anticipated that each side will take four days to complete the work.
