Smoke alarm safety for the hard of hearing

Smoke alarms save lives but those who are deaf or hard of hearing may not be able to depend on traditional smoke alarms to alert them to a fire. Fortunately, smoke alarms and alert devices specially designed for the hearing impaired are available.

As part of Fire Prevention Week, Edmonton Fire Rescue Fire Prevention Officers will be visiting an assisted-living facility, educating residents about the importance of proper smoke alarm use and maintenance.

Date: Thursday, October 9, 2014
