City of Edmonton

## Blatchford update: Recycling an airport

Media are invited to join Mark Hall, Executive Director, Blatchford Redevelopment, on a tour of the Blatchford site. An update will be provided on how the project has progressed since the last flight departed from the City Centre Airport one year ago, including how the City is reducing the impact on the environment during construction.

Media will have an opportunity to film the construction work happening on site. Demolition of the runways is underway.

**Date:** Wednesday, December 3, 2014

**Time:** 10 a.m.

**Location:** Blatchford redevelopment site (former City Centre Airport).  
Please meet at the control tower (31 Airport Road).

**Additional Notes:** Reminder that this is an active construction site and full personal protective equipment (PPE) will be required. This includes steel toed boots, hard hat, safety vest and protective eyewear. Although some protective equipment will be available, media are requested to bring any gear they have.

Visitors are required to follow safety guidelines and stay within the tour area at all times.

For more information on the project go to [blatchfordedmonton.ca](http://blatchfordedmonton.ca).
