City of Edmonton

## Valley Line LRT Open House this Tuesday

### *City sharing update to project's Environmental Impact Screening Assessment*

The City is holding a drop-in open house to share information about an update to the Environmental Impact Screening Assessment and associated Site Location Study for the Valley Line LRT project in the river valley.

**Date:** Tuesday, February 3, 2015

**Time:** 5 - 8:30 p.m.

**Location:** Old Timer's Cabin (9430 Scona Road)

The update is being prepared to reflect minor changes to the project area to address stakeholder concerns raised during the preliminary design process. Among other things, these adjustments are intended to better accommodate Edmonton Ski Club and Muttart Conservatory operations, help minimize construction traffic on Cameron Avenue and provide better connectivity for trail users during construction.

The public is invited to review and comment on the changes, and the input will be incorporated into the update report in advance of a non-statutory hearing at the Transportation Committee in March 2015.

Project team members will be on hand Tuesday to provide information, answer questions and receive feedback.
