

High Level Bridge Shared Use Path Closures

Starting September 15, 2015, there will be intermittent closures of the shared use paths along the High Level Bridge while crews install safety rails. These closures will occur from September 2015 to June 2016.

During the closures, signage will be in place to detour pedestrians and cyclists to the open side of the bridge.

In December 2014, City Council approved the installation of the safety rails on the High Level Bridge to complement existing safety measures, including signage and help phones to support individuals who are in distress.
