

Home energy toolkits now available at Edmonton Public Libraries

Media are invited to join Councillor Walters, the Alberta Real Estate Foundation and Edmonton Public Library (EPL) as they announce the official launch of the [Green Home Energy Toolkits](#).

Date: Thursday, January 14, 2016

Time: 10:30 a.m. to 11:30 a.m.

Location: Main Floor, Stanley Milner Public Library

Green Home Energy Toolkits were created to help citizens understand their energy use and provide tips on how to be more energy efficient at home. The kits are available to rent for free at numerous EPL locations. Kits include tools, tests and information to gauge household energy use, allowing residents to learn best practices on conserving energy, saving money and joining other citizens in making Edmonton a carbon neutral city.

There will be an opportunity for photos and toolkit demonstrations.
