At the workshop you can assist in shaping a Transit Strategy that will support Edmonton's future as a great city. We are looking at potential trade-offs to help focus the long-term direction and resources for transit. Transit impacts everyone's quality of life so non-riders are encouraged to attend.

City staff will share the themes from feedback received from 10,000 Edmontonians in earlier consultation. Through hands-on activities and discussion, you will share your choices around how the City of Edmonton can best serve people's transit needs within the next ten years. The final Transit Strategy vision and guiding principles are slated to go to City Council in the spring of 2017.

Anyone who is unable to attend is encouraged to share their thoughts through an [online survey](#) available between April 4 and June 30, 2016.

Also, if you see our *What Moves You?* engagement bus on the road, hop on board and share your thoughts with our street team.
