

April 1, 2016

These visible, easy-to-understand signs will help residents stay informed about what's being built in their neighbourhoods. These signs will also encourage better dialogue between neighbours affected by an infill development and the builder or contractor completing the construction.

- contact information for contractor, development permit holder and/or landowner;
- the site address;
- a brief plain-language description and/or graphic of what has been approved;
- the City file number; and
- contact information for 311

The signs are action 4 on [Edmonton's Infill Roadmap](#), the City's two-year work plan for advancing infill in Edmonton.
