

Walterdale Bridge overnight closure

April 20, 2016

The City of Edmonton will be doing a repair on the existing Walterdale Bridge overnight, which will result in closure of the bridge as well as Queen Elizabeth Park Road and Walterdale Hill Road.

A cross-beam on the bridge was damaged by a truck carrying a high load. Though the damage poses no threat to safety, the bridge beam needs to be replaced.

The replacement will require a total closure of the Walterdale Bridge, Queen Elizabeth Park Road and Walterdale Hill Road from **11:59 p.m. on Wednesday, April 20 until 5 a.m. on Thursday, April 21**. The roads will be reopened in time for the Thursday morning commute.
