

Road closure affecting Parsons Road NW from 29 Avenue NW to 31 Avenue NW

August 18, 2016

Parsons Road Northbound from 29 Avenue to 31 Avenue will be reduced to one lane starting at 9 a.m. on Monday, August 22, 2016 to accommodate drainage construction at Parsons Road and 30th Avenue. Motorists and residents should detour using Gateway Boulevard or 91 Street to avoid delays. Construction is expected to be completed in December 2016.

This work is being undertaken by the City's Utilities Infrastructure team as part of the [Mill Woods Double Barrel Replacement](#) project that involves construction of approximately 3.3 kilometres of storm trunk sewer, connection of existing storm sewers to the new trunk and conversion of the existing double barrel into a full sanitary pipe. The new storm trunk, together with ongoing and planned flood mitigation projects in the neighborhood, will reduce the risk of flooding in the Mill Woods area.

The installation of the 3.3 kilometre storm trunk sewer has been completed, while the remainder of the work that is scheduled to begin next week includes the connection of existing storm sewers into the new trunk sewer and full conversion of the existing double barrel into sanitary pipe.

The City of Edmonton thanks motorists and residents for their patience while we carry out this required construction.
