

Buses replace Metro Line September 17-18

September 14, 2016

Crews perform planned work before winter

ETS riders are encouraged to plan ahead and leave extra travel time as crews work at track level along the Metro Line on Saturday, September 17 and Sunday, September 18. Metro Line LRT service will be suspended while warranty work and regular maintenance are completed.

Shuttle buses will run between Metro Line stations and Downtown approximately every 15 minutes, with extra service every 7-8 minutes for Saturday's special events.

Regular bus service will operate at transit centres as scheduled, including Late Night Owl Service (Route 512). Capital Line trains will also run as scheduled. Metro Line LRT service is scheduled to resume Monday, September 19.

The warranty work includes track guard rail repair, traction power cable work, and MacEwan Station roof repairs. The maintenance work includes installing a glass rail at MacEwan station and window cleaning, as well as cleaning the tree canopy and installing a bird deterrent.

This weekend was chosen in order to complete the work before winter. One concert, Dolly Parton, is scheduled at Rogers Place for Saturday, September 17. Those wishing to use transit will be accommodated by the shuttle buses or by taking the Capital LRT line and walking a few blocks to/from the BayEnterprise Square station.
