

Prince Charles Community Traffic Management Plan Final Feedback Session

November 21, 2016

The City installed trial measures in the Prince Charles community last summer to reduce traffic shortcutting and speeding in the neighbourhood. The trial period for these temporary traffic measures has come to a close, and we want to hear your thoughts! Did these measures work?

Date: Tuesday, November 29, 2016
Time 6:30-8 p.m.
Location: Prince Charles School Gymnasium, 12325 - 127 Street
(parking available on adjacent street and at the school. Please use the front entrance)

Feedback from the open house will be included in the 2017 report to Council. This report will be used to help determine if these traffic measures should be permanent.

City Council approved the implementation of the Prince Charles Community Traffic Management Plan pilot project in October 2014. The City then collaborated with a community traffic committee to develop a plan of trial traffic measures that were installed in July 2015.
