Your feedback will be used to refine and determine the preferred design option that will be presented to City Council.

### Imagine Jasper Avenue

The Imagine Jasper Avenue project began in November 2015, with the goal of developing a comprehensive vision for the avenue which will direct the design of improvements and upgrades. This is the third open house the project has held to gather input and local knowledge from the public. The project will host at least one additional open house prior to presenting the preferred design option to City Council.
