Revised date/time - Mill Creek Re-establishment (Daylighting) Open House

December 8, 2016

Join us Tuesday, December 13 for the second Mill Creek Re-establishment (Daylighting) Open House. The project team will present three draft conceptual designs for potential creek re-establishment and collect participant feedback. Feedback will be used to revise and fine-tune the concepts before presentation to Council. Don't miss the chance to share your ideas and thoughts.

Date: Tuesday, December 13, 2016

Time: 5 p.m. - 8 p.m.

Location: Hazeldean Community League, 9630-66 AVE NW

The aim of the Mill Creek Re-establishment is to restore above ground connectivity between Mill Creek and the North Saskatchewan River, returning the creek to a more natural state. This restoration could improve water quality, provide flood mitigation, support ecological biodiversity and provide recreational and learning opportunities. Study and engagement results, including public feedback, ecological impacts and financial assessments, will be compiled and presented to Council to determine whether restoration work should be undertaken.
