- dd. Veterinary Services,
- ee. Warehouse Sales,
- ff. Fascia On-premises Signs,
- gg. Freestanding On-premises Signs,
- hh. Projecting On-premises Signs,
- ii. Temporary On-premises Signs.

#### **4. Development Regulations**

- a. Prior to issuance of any development permit, the applicant shall provide proof satisfactory to the Development Officer in consultation with Alberta Environment and the Capital Health Authority that the lands have been remediated to allow the intended use.
- b. Development shall be in accordance with the site plan as illustrated in Appendix I.
- c. The maximum Floor Area Ratio shall be 1.0.
- d. The maximum Building Height shall be 14.0 m.
- e. A minimum required setback of 6.0 m shall be required abutting 90 Avenue and 170 Street.

- f. A minimum required landscaped Yards of 2.0 m shall be required abutting 90 Avenue and of 6.0 m shall be required abutting 170 Street.
- g. No loading, storage, trash collection, outdoor service or display area shall be permitted within 12.5m of the property line where the Site abuts a Site zoned residential.
- h. Loading, storage and trash collection areas shall not be located to the rear or sides of the principal buildings where a Site abuts a Site zoned residential and shall be screened from view from public roadways and from any Site zoned residential.
- i. To ensure that a high standard of appearance and a sensitive transition to the surrounding land uses are achieved, a detailed landscaping plan for the entire site shall be submitted, for any future new building.
- j. A pedestrian easement shall be provided in accordance with the site plan as illustrated in Appendix I.
- k. For Gas Bars and Minor Service Stations, all pump islands shall be located at least 6.0 m from any property line, parking area or lane intended to control traffic circulation on the Site. Any canopy over a gas pump island shall be no closer than 3.0 m to any property line, and shall be designed so that the height of the canopy is not obtrusive, and maintains consistency with the design and eave line of the principal building on Site. The canopy area shall not be included in the calculation Site Coverage. The finishing, lighting and siting of development, including the orientation of gas pump islands and service bays shall be designed with the intent of achieving a compatible relationship with surrounding development and a high standard of appearance when viewed from adjacent roadways.
- l. Signs shall comply with the regulations found in Schedule 59E.
- m. A detailed landscaping plan shall be required for the parking and landscaping area along the northern edge of the site to ensure compatibility with and screening for the residential use to the north, to the satisfaction of the development officer.
