

Evaluation Criteria

CR_3339 Attachment 1

Theme	Criteria	Measure
Livable Communities	Transportation and Land Use Integration	Future population density near stations
		Future employment near stations
		Current population density near stations
		Current employment density near stations
	Inclusive communities	Low income population near stations
Mobility	Transit Ridership	Future Ridership
		Current ridership (if project operational today)
	Access and mobility	Number of nearby designated destinations
		Future population near stations
		Future employment near stations
		Current population near stations
		Current employment near stations
Healthy Environment	GHG Emissions	Greenhouse gas emissions reductions
Economic Vitality	Supporting Prosperity	Direct economic benefits due to project construction and operations
	Financial sustainability	Capital cost recovery
		Operating cost recovery
