ROUTE ? How to Read a Schedule

All route brochures have a bus schedule and a map. Timing points are read in columns and rows. To find the estimated times that a bus stops at a particular location, read down the column under the location. To find the estimated times that a particular bus will stop at other locations, read across the row (left to right). Reading across the row tells you the time required for the bus to travel between timing points. For example, to be at Capilano TC for 8:22 a.m. you must board the bus at 100 St & 104 Ave at 7:55 a.m.

Route Number The bold line indicates when the routes starts a return trip.
