Reading the Schedule

To find estimated times that a bus stops at a particular location, read down the column under that location.

To find the estimated times that a particular bus will stop at other locations, read across the row that begins with that bus number.

Reading across the row tells you the time required for the bus to travel between timing points.

Example

For the schedule to be at 10:25 at 79 St & 106 Ave, you will need to be on board the bus at Capilano Transit Centre no later than 7:56 a.m.
